

The OBPS Supports the Entire Ocean Community in Sharing Methods and Developing Best Practices

Authors - Jay Pearlman, Pauline Simpson, Francoise Pearlman, Mark Bushnell, Pier Luigi Buttigieg, Juliet Hermes, Emma Heslop, Johannes Karstensen, Frank Muller-Karger, Cristian Munoz, Peter Pissierssens, Rachel Przeslawski, Nick Roden

Sharing observing best practices accelerates high quality research and supports interoperability and reproducibility needed for global ocean observing

WHAT IS A BEST PRACTICE?

A best practice is a methodology that has repeatedly produced superior results relative to other methodologies with the same objective.

OBPS VISION: To have agreed and broadly adopted methods across ocean research, operations and applications.

OBPS MISSION: Provide coordinated and sustained global access to methodologies/best practices across ocean sciences to foster collaboration and innovation
